This is an unusual opportunity to buy new, clean dry goods at less than cost, but don't wait until the last minute before making your purchases. The best goods sell first, so come early.

Kellogg Bros. Lumber Co.
Grand Rapids, Wis.

Carl Domisse of the town of Sigel was among the callers at the Tribune office on Saturday. Mr. Domisse is one of the recent arrivals in Wood county, and as yet has not been here long enough to know whether he likes the country or not. But he thinks that it will be all right when spring opens up. Mr. Domisse formerly lived in Sheboygan county, and was attracted to this part of the country by the low price of land as compared with what it costs in the older settled districts.

The authorities of the city of Milwaukee are making an appeal for old clothing that may be used for their poor people and many cities throughout the state have responded to the cry for help, and sent in boxes and barrels filled with second hand clothing that has done much to relieve the distress and help out the needy. There is no reason why Grand Rapids should not contribute something for this same purpose. There is no question but what our citizens are as well fixed as any of them, and that there is plenty of contributed clothing that would be contributed willingly if the matter were only brought to the notice of the ones who have something to spare.

DIDN'T READ THE BY-LAWS

Wausau Residents Slip One Over on Their Neighbors.

If one may judge by newspaper reports that have been printed in Wausau, the residents of that city have slipped one over on their neighbors. It is reported that the residents of Wausau have been picking up the pieces of the city of Milwaukee, and that they have been doing so for some time. It is reported that the residents of Wausau have been picking up the pieces of the city of Milwaukee, and that they have been doing so for some time.

They all took stock. But when they came to put in a bid for the plant it was found that one of the by-laws provided that the headquarters of the company and business offices should be located at Wausau.

At the meeting that has been held since the organization of the company all the interested towns have had delegations of citizens in attendance for the purpose of telling the organizers what they have to offer in the way of sites, bonuses, buildings and other attractions that might induce a packing plant to locate in their town, but of course the Wausau people cannot do anything about the matter. They have to live up to the by-laws.

The other interested towns need not worry about where the plant will be located.

CHOIRS MAY ORGANIZE.

Movement on Foot to Have a Meeting Here Next Summer.

There is a movement on foot to organize the choirs of central Wisconsin into a society and hold a meeting each summer for the purpose of giving a concert in which there will be a large number of participants. A meeting was held in this city on Saturday for the purpose of making the preliminary arrangements for such an organization, there being representatives from Marshfield, Wausau, Merrill and Grand Rapids.

Besides the towns named above there will undoubtedly be some smaller places taken in, and the number of singers that are already insured, number more than 250. At the meeting last Saturday a committee was appointed to draft a constitution and by-laws and at the next meeting the organization will probably be perfected and officers elected.

Rev. Wm. Nommensen, of the west side Lutheran church, is interesting himself in the matter and is making an effort to have the first concert held in this city, which will probably be some time next July or August.

Again Gets the Prize.

Grand Rapids friends of Gus Bronson, the old and well known traveling salesman for Doremus & Son, shoe manufacturers of Chicago, will be pleased to learn that he has again been awarded the big prize by his company for the largest annual shoe sales.

A paper from Waupaca, Mr. Bronson's home town, contains the following: "Gus Bronson of this city has been awarded first prize for having made the largest sale of men's King George shoes and Women's King George shoes of any salesman in the employ of the same shoe house that he is employed by. This is the seventh consecutive year that Mr. Bronson has won this prize for heading the list of salesmen employed by the large shoe house of Doremus & Son of Chicago. Mr. Bronson's many friends in this city will be pleased to extend congratulations."

Death of Dorothy Nelson.

Eau Claire Telegram. Mr. and Mrs. Fred Nelson at 615 Wisconsin St., laid away to rest their little daughter, Dorothy, Wednesday afternoon, Jan. 27. The deceased was born in Grand Rapids, May 11, 1907. Dorothy was taken sick about six months ago, from which sickness she never fully recovered. She will be greatly missed by her parents, brothers, sisters and friends as well. She is survived by her parents, three sisters, and two brothers, all of whom reside in this city except Mrs. Frank Miller of Milwaukee. The out of town relatives and friends who came to attend the funeral were Mrs. R. F. Peterson of Shiocton, a sister of Mr. Nelson, Mrs. Carlsson of Grand Rapids, Mrs. D. J. Manning and daughter May of Stevens Point. The floral offerings were many and beautiful.

Death of Frank Frieden.

Frank Frieden, one of the farmer residents of the town of Seneca, died on Sunday after a short illness. He was 57 years, 10 months and 15 days of age, and is survived by his wife and six grown up children. The funeral was held this morning from St. Peter and Paul church in this city, the services being conducted by the Rev. Wm. Reding.

Prof. Ellis Sick.

According to the Merrill Herald Prof. Ellis was taken sick with acute appendicitis last week and it was necessary to operate upon him for the trouble. Mr. Ellis' many friends in this city will be sorry to hear of his misfortune and will wish him a speedy recovery.

Rev. and Mrs. Wm. Nommensen returned on Saturday from a trip to Menomonie and other points in the western part of the state. Mr. Nommensen having been in attendance at a conference and also visited with relatives while away. He reports that railway travel was anything but pleasant while he was away; the weather being cold and the trains slow.

J. J. Martin, who left here some time ago for the west, is now located at Portland, Oregon.

BACK IN THE DAYS WE READ ABOUT.

The are some of these old timers that one meets occasionally who are bound to have it that everything was long ago.

One could not help but be reminded of the past a bit on Saturday when Clark Lyon appeared at the Tribune office with an old account book under his arm. Now Clark does not appear in town very often since he got his estate down the river fixed up in condition to suit him, and as a consequence we were a bit surprised to see him, and thought at first that maybe he was under the impression that the end of February had arrived and had come out to see whether the sun was shining or not.

However, this was not the case at all. Clark had merely dropped in to show us the old account book and to show the difference in prices as they existed in those days and as they are today.

The account book had evidently been used by some person who conducted a general store, sold whiskey, kept a livery, had accommodations for horses, and when the occasion demanded, had a banking department. The book begins on the 11th of July, 1845, some years ago, and covered a couple of years in the entries. According to the charges in the book board was \$3.00 a week, while a single lodging cost 10 cents, and single meals were a quarter. Flour was \$10.00 a barrel and whiskey 38 cents a quart. Pork was \$25 a barrel, potatoes 50 cents a bushel, and in one place six drinks were charged up at 37 1/2 cents.

Among the names in the book were those of Robert Bell, Timothy Hurley, Nelson Strong, Clinton & Co. and many others, who are only a memory to a few of the oldest settlers.

One entry in the book says, "Norewegians commenced work Feb. 24, quit March 30. There is no name or anything to indicate who the Norwegians were, and it is probable this was all the account there was made of a transaction that today would necessitate quite a bit of bookkeeping. These were the good old days when a bunch of hand shaved shingles were legal tender at any store, and the times they tell about when they used to take a barrel of whiskey, knock on the door, and hang a dipper on the side, and anybody who cared to could drink. And, according to the stories of those days, there wasn't as much drunkenness in those days as there is now.

All of which may be true, but we reserve the right to believe as much or as little of it as we want to.

Winter is Over.

Gentle reader, you may not know it, but winter is over. Tuesday was ground hog day, and as it was cloudy all day the hog did not see his shadow and he knew that winter was over, so of course he staid out.

Those of our citizens who have put in a good supply of coal thinking that there was to be about three months more of winter, will now see the error of their ways and will be sorry they spoke.

It isn't often that Winter ends as early as this in Central Wisconsin, notwithstanding the fact that the entire state has a reputation for mild winters, so that the present outcome will be quite a source of pleasure to many residents in this section. Now that winter is over we are almost sorry that trout fishing does not open up a little earlier than April 15th, but we will have to wait.

If things do not come out just as we have stated above you must blame it onto the ground hog.

Keep on the Lookout for Evening Grosbeaks.

(Contributed) A flock of evening grosbeaks consisting of ten members were sighted around here this week. These birds are easily distinguished from other winter birds by their bright yellow and black color and curved beaks. The very shy and afraid they can be found by placing food where it can be found by them, being first sure that there are no English sparrows about. The evening grosbeaks are migratory birds, coming to this part of the country every winter. As the grosbeaks are not very plentiful, people should try everything to save the beautiful winter birds. O. H. Z.

Tool House Burned.

Fire was discovered in the tool house near the Green Day depot last Wednesday evening and an alarm sent in. When the fire was discovered, however, it had made such headway that it was impossible to do anything to extinguish the flames, and the best the fire company could do was to protect the surrounding property. The burning of the house is reported to be about \$500.00.

Annual Meeting of St. Railway Co.

The annual stockholders meeting of the local street railway company was held in this city on Wednesday last week, and the report of those in charge of the business was very satisfactory. All of the old officers were retained for the ensuing year. Neal Brown, M. C. Ewing and G. D. Jones of Wausau were in the city to attend the meeting.

John Farish was taken quite sick on Saturday night, his trouble having been brought about by ptomaine poisoning. Mrs. Farish was also sick on Sunday from the same cause, but at this writing they have both recovered to a considerable extent.

GRAND RAPIDS PEOPLE ARE

LANDING PLINY OF FISH.

While we are struggling in the throes of a Wisconsin winter, there are some of our residents who are differently employed. The following item from the St. Petersburg Florida Times, tells us of a fishing trip in which Miss Mabel Gardner of this city took part.

The first catch of the season was brought into the city yesterday afternoon which landed at the dock to be greeted by a large crowd of tourists. It was estimated that 500 pounds of fish were caught by the party, of which there were twenty-three in number as follows: W. M. Franklin Birmingham, Ala., P. H. Hardt, Anasco, Ind., C. G. Dumble of Ohio, L. A. Raymond of Florida, J. James Dugan, Germantown, Pa., W. C. Goff, St. Paul Ind., G. H. Parker, Flat Rock, Ind., P. B. Clever, Harveyburg O. W. W. Moehn, Richmond, O., David McClimens, Clinton, Ill., George Gardner, Grand Rapids Wis., Mr. and Mrs. George Stubbs, Old City, Pa., H. L. Emery, Grand Forks, N. D. and Miss Stella Sweet St. Petersburg, Florida.

Among the ladies who were fishing was Miss Mabel Gardner, of Grand Rapids, Wis., who caught nearly 100 pounds. The largest fish caught was a grouper, which was brought in by William Emery, weighing 15 pounds. David Smally of Sheldon, Ill. was a close second with a red snapper weighing 11 pounds. S. H. Dana, of New Hampshire also caught a 11 pound black grouper.

Man Was Not Hard Beaten.

Stevens Point Journal.—A few nights ago a Stevens Point policeman, patrolling his beat, noticed a man trudging along with a heavy pack on his back. A series of questions brought out the fact that the pack consisted of coal, and the man confessed to having stolen the fuel from the storage house of an up town firm.

He was thereupon ordered to return the coal, which he readily complied with, but as his identity was known to the policeman he was not then arrested. He made no excuse, but justified his action by saying he was without work and was forced to steal in order to provide for his family.

Next day the circumstances were related to the manager of the firm whose coal had been stolen, but instead of prosecuting, he said, "I'll give you the man's name. I'll send him a ton of coal and also give him a job if he cares for one." It was rather an unusual offer, but it was sincere and gives those who decry the hardness of heartedness of commercial concerns something to think about.

A Correction Gladly Made.

Wm. Johnson, who drives the west side fire team, informs us that we were mistaken when we stated that the east side fire company arrived at the Johnson & Hill fire last week. He states that the west side company was there when the east side company arrived, but that they were back of the building at the time and were not noticed. We do not know that it makes any difference who arrived first, as it is taken for granted that both companies make the best possible time in getting to a fire, and if either one comes out ahead it is not because of any negligence on the part of the other company.

Death of Alexander Atwood.

Alexander Atwood, a young man 19 years of age, died at the home of his parents last Wednesday after an illness about a week, cause of death being a complication of diseases. The young man had pneumonia, diphtheria and later pneumonia, and being unable to survive the combined attack. The funeral was held the same day, it being impossible to hold it publicly on account of the contagious character of the disease.

Other members of the family have been quite sick, but were somewhat better at last reports.

Automobile Strikes Street Car.

An automobile driven by James Cahill struck one of the street cars on Sunday afternoon, and the result was that the auto lost a wheel and was otherwise battered up about the front end, while the street car was very little damaged. The automobile was one belonging to O. G. Malde and the accident occurred near the baseball park, and as it happened neither the auto nor the street car were running at a very high rate of speed, or the damage would undoubtedly have been greater. Nobody was hurt.

Improvements to Church.

At a recent meeting of St. Catherine's Guild it was decided to make some improvements to the guild hall and rectory of St. John's Episcopal church during the coming spring. It will cost something like two thousand dollars to make the required improvements. Mesdames I. P. Witter, W. F. Kellogg and I. MacKinnon were appointed as a committee to make the preliminary arrangements for the work.

Scandinavia Was Easy.

The local bunch of basket ball players went to Scandinavia on Friday evening and played a game with the boys over there. Either the Scandinavia boys are awfully poor players, or else the locals are awfully good, for they cleaned up the Scandinavia boys by a score of 38 to 10 on the extra floor. Possibly our boys are becoming pretty good.

Fined for Speeding.

Riley Denton was up before Justice Calkins on Monday on a charge of driving his motorcycle at a greater speed than the law allows. After listening to the testimony of Officer Howlett in the matter the Judge made it a dollar and costs, which was paid.

Rev. F. R. Cisewski, who has been in New York for a week or more, is expected home again next Saturday.

SNOW AND SLEET TIE UP TRAFFIC.

This section of the country was tied up with as much of a bizzard as ever happens in Wisconsin on Sunday when snow and rain fell all day, accompanied by a high wind that drifted everything that was loose into piles wherever there was a sheltered spot.

Not being satisfied with what had been done to us on Sunday the weather cleared up again Monday afternoon and started down a little more of the beautiful, which was accompanied by another gale that blew up any spots that had been missed the day before.

The various rural carriers centering at this place managed to make their trips, but found it a most difficult feat, as there were many places where no attempt had been made to break out the road, while in other spots the snow had drifted back in, making up any work that had been done in this line.

The trains passing thru this point were pretty generally delayed, the Monday evening train on the St. Paul being some 40 hours late on Monday evening, while the Northwestern company failed to get a train thru at all on that day. The train that was to arrive here from the south at 1:15 did not make it, but got stuck in a snow drift and after being released by the snowplow, went back to its old lane.

The street of Sunday did no damage in this immediate vicinity, but further south there were many places where telegraph and telephone wires were pulled down and great damage done.

While there are some large drifts over the roads in this vicinity it has caused little or no hardship, as the farmers and others in this vicinity are prepared for winter, and think nothing of a snowfall of this kind.

WILL SOON MAKE A MOVE.

Elks Expect to Hold Their Next Meeting in the New Hall.

The Elks held their last meeting in the old hall in the Wood building on Monday evening, and it is expected that this will be the last business that will be transacted in the old quarters, unless something unforeseen occurs. The Elks have occupied their present quarters since the hall building was erected, it having been constructed especially for them, and the place has proven a very pleasant one, probably as good as could possibly be expected in a rented place.

The rooms will be occupied by the Foresters as soon as the Elks vacate, it being the intention of the Foresters to have a clubhouse where the members can meet at any time the same as has been done by the Elks in the past. The other Catholic societies will also meet in the new hall, and the result will be that they will have a much nicer and more commodious place than has been the case in the past.

Will Hold an Opening.

It is the intention of Landlord Gerow of the Hotel Witter to hold an appropriate opening on the 15th of February to celebrate the completion of the new addition that has been put onto the hotel during the past few months.

The most notable part of the new addition is the dining room, which is 35x45 feet in size, and is so built that the windows look out upon the river, giving a view that is interesting and ever changing the year round. The addition of this dining room and the added rooms to the upper story will put the Witter hotel in line with the good hotels of the state, and make it a place where any person might be glad to spend a Sunday. Mr. Gerow has a reputation already on the table here, and with the new dining room there should be an added attraction to the place that it has not heretofore possessed.

Have Doubled their Stock.

The F. MacKinnon Company has increased its capital stock from \$50,000 to \$100,000, and an effort will be made to sell this stock among the people of Grand Rapids. It might be stated that a considerable portion has already been taken up, and the indications are that there will be no trouble in disposing of the entire lot. The MacKinnon company has always been a successful company, but for a number of years past have been engaged in manufacturing wagons, and since this work was commenced has never been properly equipped to supply the demand in this line, their product having been very popular ever since it was put onto the market.

Death of Mrs. Buss.

Mrs. Henrietta Buss died on Saturday at the home of her daughter, Mrs. Wm. Schultz in the town of Sigel, at the age of 77 years, 2 months and 14 days. She is survived by two sons, Frank and August Buss of Kellner, and Mrs. Schultz of Sigel. The funeral was held on Monday at the German Lutheran church in Kellner, Rev. Radke conducting the services.

Work on Storage Plant.

Work was commenced Tuesday on the new cold storage plant of the Mott Fruit and Produce company, and it is expected that the work will be carried forward as rapidly as practical considering the weather at this time of the year.

JOHN D. TESTIFIES

ROCKEFELLER, JR., APPEARS AS WITNESS BEFORE FEDERAL COMMISSION.

BELIEVES IN LABOR UNIONS

Asserts Workers Have Right to Organize—Tells U. S. Body That He Is More Than Willing to Rectify Any Wrong He May Have Committed.

New York, Jan. 27.—John D. Rockefeller, Jr., in testifying before the federal commission on industrial relations on Monday strongly defended his attitude in the Colorado mine strike, but at the same time he advanced the opinion that it is just as proper for labor to organize for its own protection as for capital to do so.

In addition to being an active director of the Colorado Fuel & Iron company, Mr. Rockefeller is also one of the chief directors of the Rockefeller foundation, one of the philanthropic aggregations of capital which are being investigated by the commission. Mr. Rockefeller was first asked as to his occupation. He said:

"That is a hard question to answer. I spend part of my time directing the Rockefeller foundation, and part directing the industries established by my father. At other times I devote myself to matters of investment."

Then the witness began reading a statement, which he was reading in advance part of which follows:

"Anyone who has followed the controversy which has arisen out of the Colorado situation will have observed that no effort has been spared to make it appear that I have attempted to exercise a kind of absolutism over the coal industry of Colorado and particularly that I have tried to dictate a policy of nonrecognition of unions. An attitude toward industry and toward labor such as is here implied is so abhorrent to me personally and so contrary to the spirit of my whole career and to the principles which I have endeavored to put into effect that I believe it to be just as proper and advantageous for labor to associate itself into organized groups for the advancement of its legitimate interests, as for capital to combine for the same object. Combinations of capital are sometimes conducted in an unworthy manner, contrary to law and in disregard to the interests both of labor and the public. Such combinations cannot be too strongly condemned nor too vigorously dealt with."

"As respects the question of the recognition or nonrecognition of labor unions in Colorado my attitude has been in conformity with the views I have expressed relative to the responsibility of stockholders, directors and managers. The hiring and discharging of men and the framing of agreements as respects the same are functions which I have regarded as rightfully belonging to the management and not to the stockholders or directors."

"Doubtless mistakes have been made and conditions are still imperfect. I have no desire to defend any conditions that are justly subject to criticism. I only ask that the responsibility for them be apportioned fairly."

Pressed by Walsh, Rockefeller finally said:

"My commission has doubtless got much information with reference to the subjects that you have been developing. Personally as a director of the Colorado Fuel & Iron company I should be very happy to have any matter of abuse or of wrongs you may have found brought to my attention. I can assure you that I should be only too happy to do anything in my power to see that such wrongs are righted."

GERMAN CRUISER SUNK

TWO OTHER WARSHIPS DAMAGED BY BRITISH NORTH FLEET.

Kaiser's Squadron Attempts Second Raid on England—780 Tons Down With Vessel.

London, Jan. 28.—The German armed cruiser Blücher, 15,500 tons displacement, was sunk and two other German cruisers were badly damaged in a naval battle in the North sea, according to an official announcement made by the British admiralty through the press bureau.

Only 125 of the Blücher's crew of 895 were rescued. The official announcement follows:

Early Sunday morning the British patrolling squadron of battle cruisers and light cruisers under Admiral Beatty and a destroyer flotilla under Commodore Tyrwhitt detected four German battle cruisers, several light cruisers and a number of destroyers steering westward and apparently making for the English coast.

Immediately upon sighting the British fleet the enemy made for home at high speed. They were at once pursued, and about 9:30 a. m. an action brought within range the British battle cruisers Lion, Tiger, Princess Royal, New Zealand and Indomitable on the one side and the German armored cruisers Blücher and the battle cruisers Derfflinger, Seydlitz and Moltke on the other.

A well-considered running fight ensued and shortly after one o'clock the Blücher, which previously had fallen out of line, was captured and sank.

Admiral Beatty reports that two other German battle cruisers were seriously damaged, but were able to continue their flight until they reached an area where the danger from German submarines and mines prevented further pursuit by the British.

GOMPERS CLAIMS BLACKLIST

Asks United States Body to Investigate Big Telegraph Companies.

New York, Jan. 26.—Samuel Gompers, president of the American Federation of Labor, was a witness before the federal relations body on Friday. He began by reading a telegram from the Commercial Telegraphers' union urging him to ask the officials of the large telegraph companies to testify regarding alleged blacklisting operations.

"I can assure your commission that if you follow this suggestion you will receive some startling information," he said.

Mr. Gompers said he believed the same laws should not be given business combinations and labor organizations.

Mr. Gompers asserted that boycotts and strikes were legal, according to the Clayton bill.

TWO U. S. SHIPS TO GERMANY

Steamer Dacia, With Cargo of Cotton, to Be Seized by British Warships.

Galveston, Tex., Jan. 25.—The former Hamburg-American steamship Dacia, with a cargo of 11,000 bales of cotton for Germany, cleared for Rotterdam, via Norfolk, and sailed at daybreak Saturday.

Officials realize that Great Britain may "capture" the vessel as a prize war, because she still regards the Dacia as the property in sufficient degree, at least, of Germany.

New York, Jan. 25.—Carrying a cargo of food supplies shipped by an American firm and consigned to an American citizen in Germany, the American owned steamer Wilhelmshafen left its dock sailing for Hamburg. The ship's cargo is for civilians.

JEROME IS OUSTED

PROSECUTOR IN THAW CASE IS REMOVED BY ATTORNEY GENERAL OF NEW YORK.

VICTORY FOR WHITE'S SLAYER

Friends of Millionaire Predict That His Chances for Freedom Are Now Brighter Than They Have Ever Been—Lawyer Thanked by Chief.

New York, Jan. 28.—W. T. Jerome, for nearly nine years known as Harry Kendall Thaw's nemesis, was removed on Tuesday from his position of special deputy attorney general of the state of New York by Attorney General Woodbury, and at once ceased his fight to have Thaw sent back to Matteawan insane asylum.

The reasons that actuated Attorney General Woodbury are embodied in the telegram of dismissal which he sent to Jerome. The telegram in part reads:

"You and Mr. Kennedy ought to be congratulated upon the successful outcome of your efforts for the return of Harry K. Thaw to the rightful jurisdiction of the courts of this state. The case will now be handled by the attorney general's office. I thank you for your services."

"EUGENE B. WOODBURY.

Thus ends the long prosecution of Thaw by Jerome. And thus ends the greatest obstacle between Thaw and freedom is removed. Thaw's friends are openly predicting that Thaw's chances for victory in his coming fight are now more than bright.

Jerome has been connected with the case since the night the Pittsburgh millionaire shot and killed Stanford White, nine years ago next June.

Through both sensational trials, through three habeas corpus hearings, and through every recourse to law, old and new, Jerome raced with Thaw, and always beat the gate. After months of waiting, the unrelenting New York—the final chapter in the most remarkable prosecution in criminal annals.

SHELLS HIT BRITISH SHIPS

Admiral Beatty's Flagship Lion and a Torpedo Boat Damaged in Naval Battle.

London, Jan. 28.—The British battle cruiser Lion was struck below the water line and her forward compartment flooded so that she had to be towed to port by the battle cruiser Indomitable, one British destroyer was struck and towed to port, one of her and 13 men were killed, and three officers and 20 men wounded in the Helgoland naval battle in the North sea on Sunday.

The North sea on Sunday, according to additional reports given out by the official press bureau on Tuesday.

The Lion is reported to have been Admiral Beatty's flagship. All the British ships and destroyers engaged in Sunday's action have returned to port, says the admiralty. This contradicts the Berlin report that one of the British ships was sunk.

The official statement from Berlin reiterated that a British cruiser had sunk and added the assertion that two British torpedo boats were sunk.

SHIP MEASURE IS ADOPTED

Senate Passes Fletcher Bill Providing for Organization of a Shipping Organization.

Washington, Jan. 28.—By a tight party vote, the senate commerce committee on Tuesday adopted a favorable report on the Fletcher substitute for the ship purchase bill and by the same vote rejected the Lodge amendment, which declares that no interned ships of belligerents shall be purchased. The Fletcher substitute provides for the organization of a shipping corporation under the laws of the District of Columbia, a shipping board to be at least 51 per cent of the stock. The shipping board is to consist of the secretaries of commerce and the treasury, with three additional members.

NEW EMBARGO ON U. S. YARDS

Discovery of Several Cases of Foot-and-Mouth Disease Leads to Federal Quarantine.

Chicago, Jan. 25.—The Union Stock Yards here were placed under federal quarantine on Tuesday. Shipments of live stock from Chicago to any part of the United States were prohibited by the order. Discovery of several cases of the foot-and-mouth disease in a shipment of hogs from the Union Stock Yards to Philadelphia led to the embargo. The quarantine does not prohibit shipments of dressed meats and will not affect the packing industry.

FOUR U. S. SAILORS DIE

NINE OTHERS ARE INJURED IN BOILER EXPLOSION.

Accident Occurs on the Flagship of the Pacific Fleet Off Guaymas, Mexico.

Washington, Jan. 25.—Four men were killed and nine injured in a boiler explosion on Friday on board the United States cruiser San Diego, formerly the California, off Guaymas, Mexico, Rear Admiral Howard reported to the navy department.

The accident happened just after the cruiser had completed her power trials. Admiral Howard's message, which was dated six o'clock at night, read:

"Due to boiler explosion on U. S. S. San Diego, the following men are dead: Arthur J. Wyatt, Ambros L. Hardie, William F. Elliott and Clifford A. Weston, all second class firemen. The following were seriously injured: Benjamin F. Tucker, R. V. Glidden, Ernest A. Ledwith, E. Miller, all first class firemen; George Ohm, water tender; Darrell L. Varnado and Charles W. F. Peterson, both firemen of second class; Emanuel A. Shappell, and Patrick A. Maddam, coal passers. Next of kin have been notified. The ship had just completed four hour full speed trials."

The San Diego is the flagship of the Pacific coast, Rear Admiral Howard having transferred his flag from the cruiser of the Pacific fleet from the West Virginia to the San Diego on November 25. She cost \$5,000,000, and was built at the Union Iron works, San Francisco, and is one of the fastest and best boats of that type in the navy. She formerly was the cruiser California.

She has a displacement of 15,680 tons. Her dimensions are: Length, 322 feet; beam 70 feet; draft, 20 feet. She carries four eight-inch guns, 14 six-inch guns, 18 three-inch and 12 three-pounders.

SENATE HOLDS UP PROBE OF BOARDS

DIFFERENCE OF OPINION AS TO BEST WAY IN WHICH TO CONDUCT INVESTIGATION.

BREY OFFERS AMENDMENT

Wants Probe Transferred to the State Board of Public Affairs—Adopt Rules of 1913 Session of the Legislature.

Madison, Jan. 28, 1915.

That state boards and commissions shall stand trial has been fixed by an overwhelming sentiment in the legislature, but the senate developed a difference of opinion as to the best manner in which to conduct the investigation.

When the Axel Johnson resolution for an investigation of state boards and commissions by a sub-committee of the joint committee on finance came up for consideration, Senator Bray offered a substitute amendment by which the investigating would be transferred to the state board of public affairs, of which Gov. E. L. Phillips is a member.

Plans Thorough Probe.

Mr. Bray's resolution provides "that the state board of public affairs and expected forthwith to investigation of the entire into the organization of the various state commissions, boards and departments, the duties performed and the activities engaged in by the heads and employees thereof, the efficiency of such boards, commissions and state departments as now organized and conducted, the duplication of work, if any, with a view of determining whether any of such commissions, boards or state departments should be abolished or consolidated."

Mr. Bray composed of expert investigators, trained to conduct a probe of state boards and commissions.

Home Rule Asked.

The question of home rule is again before the legislature. Senator Arnold, the only Socialist of the upper house, introduced a joint resolution giving to cities and villages the right of home rule.

Senator Bray offered a joint resolution for an amendment to the constitution to make the office of secretary of state, state treasurer and superintendent of public lands and superintending of public works elective by the people. His resolution was offered in the interest of a shorter ballot.

The senate adopted a joint resolution adopting the rules of the legislature of 1913 for this session.

Kernan Succeeds Self.

Gov. Phillips filed with the secretary of state the appointment of James Kernan, Superior, to succeed himself on the Wisconsin grain and warehouse commission for the term ending Feb. 1, 1916. The following military appointments have been made: Lieutenant, and Byron O. Bell, second lieutenant, of Co. I, First Regiment, Neenah; H. Howe Allen, to be first lieutenant and Thomas P. Colbert, second lieutenant of Co. L, First Regiment, Beloit; August B. Buchholz, to be first lieutenant, and Emil G. Priddy, to be second lieutenant, of the 1st Infantry, Ripon.

Alexander Gets Appointment.

Gov. Phillips sent the name of Walter Alexander, master mechanic of the Milwaukee road, to the senate, as a member of the railroad commission of Wisconsin to succeed David Harlow, whose term expires on Feb. 1.

According to the governor's office, Mr. Alexander is a thorough railroad man, combining by his experience, his aptitude and practical knowledge of railway and electrical construction.

Bill to Aid Consumers.

Assemblyman Crosby today introduced a bill to establish a marketing department in the dairy and food commission, and providing an annual appropriation not to exceed \$2,000. The purpose of this department is to reduce the cost of marketing, make city markets efficient and sanitary, and establish a system of direct purchasing between the consumer and the producer.

Five-Month Session Seen.

Many guesses have been made as to the probable length of the session, the consensus of opinion being that it will continue for at least five months. If the session is kept within that period, it will be a gain over two years ago, when the legislature remained here more than seven months. Much delay was occasioned two years ago.

Deaths at Los Angeles.

Manitowoc.—Theodore Thompson, who for years was employed by the Goodrich tire company as a purchaser, died at Los Angeles following a long illness. He will be brought here for burial.

Phone Co. Improves.

Manitowoc.—The Wisconsin Telephone company has finished repair and extension work on its lines and equipment here after five months' work. The cost is estimated at about \$40,000.

Seek \$4 Gold Piece.

Merrill.—If a \$4 gold coin can be secured, one exhibit at the "open day" of the T. B. Scott library will be complete with every hint of an "open house" of the library was set for February 19.

Will Erect New School.

Racine.—The high school board of the joint district of the town and village of Watertown has decided to erect a new \$12,000 high school.

Factory Workmen Hurt.

Merrill.—Arthur Engel was seriously injured when he fell from a railway at the Lincoln Box company's plant. Engel was on top of a railway when a chain gave way and knocked him from the platform.

Plan New Bank Building.

Neenah.—The Neenah State bank will erect a new building. Property has been purchased and construction will be commenced soon. The bank is in its third year.

when the La Follette men led an attack on former Gov. Francis B. McGovern, who attempted to remove Commissioner of Insurance Herman L. Ekern for political activity.

Want Game Laws Revised.

A complete revision of the fish and game laws is offered as the basis for legislation by State Fish and Game Warden J. A. Shotts, Sparta, in his annual report submitted to Gov. Phillips today. Complicated and conflicting provisions in the laws are a hindrance to effective enforcement, he asserts.

Offers Water Power Plan.

Assemblyman Carl Pieper, Manitowish, is working on a water power bill which he thinks will help to solve the problem so that the public will begin to reap some immediate benefits.

His bill will enable any governmental unit that exercises the taxing power—county, city, village or town—to develop a water power for its own use or for profit. The only restriction in the bill will be a limit amount of bonds that may be sold to build reservoirs and plants. This limit will be 25 per cent of the assessed valuation of the unit making the issue.

Therefore, municipalities have owned utilities of this character only for their own purpose. Mr. Pieper proposes to permit northern counties, towns and cities to acquire water power sites, build plants and sell the power they generate to private concerns, such as paper mills and factories.

The state road school held under the auspices of the state highway commission adopted resolutions approving the proposed recommendations of the state highway commission regarding changes in the highway construction law. These

A delegation of students met McLaughlin at the door and volunteered to escort him to Hard's room. Instead, they led him to the attic, shoved him in and locked the door. Then they aroused the other boys in the dormitory and about 150 of them staged a mimic riot. McLaughlin was discovered when a search was made for the leaders of the second riot.

W. H. Brandon, editor of the Free Speech at Maroon, Wis., whose speech at the armory led to the first riot in the city. Mayor Knueppel had issued an order forbidding the meeting in the armory, and Brandon addressed the crowd from the armory steps. The police interfered and about 1,000 men gathered outside the armory. POTATOES PASS INSPECTION
Wisconsin Growers Have or Have Not
25,000 Bushels of High
Grade Stock

Madison.--It is estimated that Wisconsin potato growers now have hand fully 25,000 bushels of seed stock of such superior quality as to entitle them to be sold under state certificate.

Inspectors report that, notwithstanding the damage that was done late blight during the fall months,

stock inspected is now in first condition, growers having culled the supplies very closely.

That the bulk of this high grade certified home grown potato seed should be used for community potato development in Wisconsin rather than be sold outside of the state is the opinion of J. G. Milward, secretary of Wisconsin Potato Growers' association.

Evidently it is difficult for people who travel to obtain pure water while on route. This has been discovered by the following: A board of the drinking water supplied on trains in that state. WEAVING CALLED OLD ART.

Woolen goods have been made in an older art than spinning. Rude looms are pictured on the tombs of Thebes, and it is believed that the ten curtains of fine linen, blue and purple and scarlet, with cherubim of "cunning work," made for the tabernacle, were tapestries, the work of the loom.

...him. "Suicide's ... let us out. I'm ... here, Meade. Take ... the police and the papers." ... stepped quickly to the door ... and passed out the cry of a broken ... announced returning conscious- ... to the stricken wife.

"Jane," whispered Dick as he bent over her and lifted her gently to her feet, "shall I telephone?"

"No," she answered hoarsely. "He did."

"To whom?"

"The police."

"Then they'll be here at once." He helped her back to the divan. "Listen, Jane," he announced with an air of command. "If I do the talking, I was a witness; if I talk, you know, a col- lapse from overwork. They may know me."

She made no reply and a ring at the doorbell told him that the moment had come for the supreme effort on behalf of the friend he had loved.

"Remember," she said, "don't let a word."

He stepped to the door and opened it to the police.

Remorse is more endurable than suspense. We approach the scaffold with stouter hearts than we await the verdict. That may sound our doom, but we look more resignedly upon the dying one. Crushed and bowed down as she was by her husband's tragedy, death Jane found a sort of solace in the very exquisite of her own sacrifice. The sacrifice he had made for her was complete. To the world at large— to all save Jane and Brand and Dick, Reynolds' suicide was but one of those every day sordid affairs of modern life—the symbol of failure and a weak- ling's surrender. But to those who knew the truth the act was invested with the dignity of a martyr's. It had saved her from the shame and horror of an exposure that might have come any time; he had paid in full the price of her folly.

Reynolds gone, Brand stifled all vestigations of the dam's collapse with a certainty he could never have employed with Reynolds living. The engineers and chemists who now examined the shattered cement pronounced it of the proper quality and the man who passed it at the time the construction was dead. While investigations of the kind that there was much outcry and court continuance and lack of specific charges the matter waned and was soon forgotten.

Brand took good care that the price learned of the dead man's financial solution and to the public mind it accounted for his death.

So Jane saw Brand immune and ruffled while she had only the memory of a better man's love to help drown the voice of conscience. In bitterness of her sorrow and in horror there came time for her when she was moved to risk her fate for her husband's death upon the head of Brand. But in such moments the face of the husband before her eyes and the heard again his loving words of ga- tion: "I have no claim it was the time you were." To open now the pages he sealed forever would be but recompense for his sacrifice. No more must go on and bear in silence.

(THE END.)

... a while at least, ... I cannot bear to ... a fugitive. I cannot bear to ... chera of the earth with the fear of ... suit in your heart and the dread of ... capture over at your door. You must have liberty—a way to live your life out in all the sweetness that must come into it after all this suffering. And you will know that I am always with you, loving you and guarding you the best way God will let me."

The infinite tenderness of his voice now unnerved her completely so that, though she saw or felt some dire omen in his words, she was helpless to protest them. She sank into his arms and they were clasped together in one long passionate embrace.

The lights of the room danced before her eyes as their lips parted. She could scarcely see him as he gently drew away from her and stepped lightly toward the telephone. He called a number that was strange and meaningless to her.

"Hello," he said, "police headquarters? Connect me with the Ninety-seventh, please." A pause—"Hello"

"I've Found a Way Out of It for Both of Us."

Ninety-seventh? Send a man to four-twenty-six Marion road— Yes, immediately. It's a suicide."

For an instant she was stunned, but as she sprang toward him her cry of horror mingled with the report of a pistol. She caught it in her arm as he fell and they sank to the floor together.

But she was too late. Reynolds had paid the price and paid alone.

Dick cleared the half dozen steps from the first landing at a bound and Brand came stumbling after him. The reporter knew quickly beside them. "Is he gone?" the millionaire panted breathlessly.

The reporter's eyes swept over the lifeless body of his friend and his hand went lightly to his heart.

"Yes, he's dead," he answered softly. "I think he had planned it a long time and he knew just how."

JUST THE SAME KIND OF GIRL LONG RECORDS OF SERVICE

Modern Maid, in All Essentials, is a Worthy Copy of Her Mother and Grandmother.

Every now and again somebody says in print, this question: "What has become of the old-fashioned girl?" Probably the same question has been asked since the time of Noah and will be asked until the end.

Mary Lyon, when she provided for the establishment of Mount Holyoke college for girls, stipulated that the household work in it should be done by the students. That rule was enforced rigidly up to a recent date, when the directors and faculty, feeling that the practice might have become outworn, made the domestic tasks of the institution optional for the undergraduates.

But when the girls of Mount Holyoke were requested to announce their wishes on the subject, 748 of the 800 elected to continue in the tasks of sweeping corridors, washing dishes, setting tables and making up beds.

There is no need to be sorry about the American girl, even if she seems wear weary to the sight of which seems to preclude all idea of work on her part. She isn't saying much about it, but she is in all essentials the same kind of girl our mothers and grandmothers were.

Heart Needs Care.

Acute heart strain is practically unknown in the young, healthy and well-nourished adult, but quite likely the result of extra work and falls in its capability to do it. The doctor argues, therefore, that one cannot be too careful to economize in the work laid upon this organ.

According to one physician, he retires to bed at ten instead of twelve and the heart 876,000 foot pounds a year. Lying down a half-hour lessens its labors in the same period by 219,000 foot pounds. If our Sundays were spent in bed the yearly relief to our hearts would amount to nearly one million foot pounds.

He does not venture to even estimate the relief that would come were we to abstain from violent emotions, especially anger.

PRETTY NECKWEAR THAT MAY BE MADE AT HOME.

Somewhat Expensive to Buy Ready to Wear, But Materials Are Cheap and the Work Really Amounts to Little.

Never before was there such a demand for pretty neckwear; in fact, the fancy, for it amounts to a craze. Going through a stock of neckwear a few days ago I was astonished at the simplicity of some models and could not help thinking how much money might be saved if the materials were bought and the pretty accessories be made up at home, writes Helen Howe in the Washington Star. True, one can buy inexpensive neckwear that is very pretty; but alas! only until it has been laundered. Then it is poor looking and decayed. The better qualities of neckwear are quite expensive. For example, a collar marked at \$15.00 I found was made of lace sold at 50 cents a yard at the counter. The two were exactly the same, both in tint and quality. As one yard makes the collar the saving is obvious. It could be made in half an hour, too.

The lace is folded in two and nine inches marked off at each end. There it is mitered to form the corners. The lace between the corners is plaited or gathered to fit the collar on the waist. A strip of lawn doubled will make three or four edges neat and give a firm hold for sewing in.

The organdie collars are very popular indeed. A collar in the cheap quality will cost 50 cents, the gooder kinds a quarter, while half a yard of the material will make half a dozen collars in different sizes. For 60 cents a yard is very sheer organdie can be bought. The collars are made double. The usual finish is a picot edge with or without a row of hemstitching on the inside. This can be done by the hemstitcher for hemstitching the raw edges of the collar for hemstitching and basted half an inch from these edges. This is the guide for the hemstitcher. When returned the result is a picot edge. If an additional row of hemstitching is desired it will be necessary to put in a basting thread to show where. It is not so easy to give a verbal order.

Plain organdie collars are the rule, though we see some embroidered, and others decorated with insets of lace and so on. I like those with a little embroidery in satin stitch all around the top of the revers. These are especially dainty.

Organdie lends itself well to collar and cuff sets, and so does pique, which, by the way, is one of the fashionable fabrics again. Not the stiff, old-fashioned kind, but a soft, though heavy, weave. The large cord is preferred to any other.

The pique collar and cuff sets are made with a machine stitch. The material is always used double. The edges are stitched upon the wrong side. Then the collar is turned right side out, and a second stitching is put around the edge.

COLLARS OF WHITE SATIN

Make a Charming Addition, Especially to the Gown Made Up of Dark Blue Serge.

There is already much speculation about the joining of soft silks and flaring circular skirts for spring, but if both remain in the future, for the French openings are usual, no doubt the designers will find some good way out of the difficulty. Much can be done by borrowing from the ideas used in evening gowns made of silk net, and now have flaring or a thick hollow cord. A cable cord of velvet or silk can replace this one on silk street skirts.

The advance fashions in dark blue show the usage of white satin in the way of wrinkled stock collars (and wide turnover cuffs, in wide belts of white kid with pearl buckles, and even in white satin hosiery). This is a good idea for the woman to assimilate if she is given to wearing dark blue. It would brighten that serge frock she has now and make it a bit different from what it has been.

Fur Is Overdone.

It is almost a relief to see a suit without the use of fur trimming, for the use of fur threatens to be sadly overdone. Effectively used and in good quality, fur trimming is enormously successful upon street costumes but if one cannot have fur one would be wisest to do without and the number of cheap fur-trimmed models shown is lamentable.

FIND INTEREST IN SOMETHING

Friends Will Soon Tire of the Woman Who Avows Life to Be a Bore.

The woman who is not interested in things in general or something in particular is an uninteresting companion. No matter how beautiful she may be, her charm will be minimized or of short duration.

The victim of ennui or indifference victimizes everybody about her. Her friends may look upon her as an admirable beauty, but she is decidedly uninteresting, and even a little bit of her interest is an overdone.

Return of the Train

Trains are used on more and more evening gowns. For a long time, however, especially in the evening, have been trainless. Be sure, have had trains. Most of the new ones have short skirts, all the way a train gives a rather odd effect. If it hangs separately, from over the very short skirt.

Intelligent people are the eyes are open. That is the become a great success. Such are so interesting that it happens to lack beauty that gotten in admiration for intellect.

Someone has said that should ride a hobby.

Taffeta Again, but Not

Taffeta will again be worn, but women seem to informal evening gowns for everyday frocks. Her design of a flowered sateen be the smart fabric for the most of the millions.

WRECKED BY CUB

In Two Short Hours Black Bruin Had the Time of His Life.

BEDLAM IN A STORE

Hens Squawked and Peafowls Screamed Whenever Bunch of Fur Came Near—Monkeys Chattered, Fish Alone Silent.

Boston.—A year-old black bear of the Maine woods variety broke from his cage in a store animal store a few days ago and for two hours went on the liveliest rampage that it has ever been the lot of a private menagerie to witness. The little black bear, who goes by the name of "Pop," had become discomfited because of the suspicion of the habits and habits of the other odd thousands of animals in the cages.

Bruin was captured only after bedlam had reigned for two hours in the store. Then he was taken by two keepers, two policemen and several helpers, all of whom had a hard time controlling the snapping but playful cub. During his rampage "Pop" did not get a taste of blood, which probably prevented much damage.

Fought Big Moose Head.

But that two hours "Pop" wandered up and down the aisles, which is a block long; had bitten the end of a bag of corn and swallowed the contents; had unselfishly released a tribe of rabbits from their pens by breaking down their wire mesh; made an attack upon a moose head nailed to a board, and crawled in and out of numerous holes; had set the birds screaming and clattering, and had afforded amusement to a crowd of several hundred persons who surrounded the windows of the store.

Several times the crowd outside could hear him squeal as he crawled

into a bin and hurt himself in a cut again. Then dogs began to bark, canary birds set up a twitter, monkeys began bawling, and peacocks shrieked, rabbits ran and thither, and bedlam was let. Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would freeze. My stomach bothered me, I had pain in my side and a bad headache most of the time. I took Lydia E. Pinkham's Vegetable Compound and has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me." — MRS. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and formed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Never in Doubt What to Do Next.

Mary Jane, a child of five, "Just loved" to attend the meetings of a West side church society because it meant a "lunch" away from home. One afternoon at one of these meetings the minister was vigorously explaining the needs of the church, and plans to secure aid, which seemed fruitless. In despair he exclaimed: "What shall we do next?" There was a thoughtful silence, then suddenly a small voice piped out: "Let's eat!" — Kansas City Star.

Why They Were Attentive.

A clergyman preaching in a country church for the first time was delighted to find the congregation very attentive and told the reverge so after the service. The verger replied: "Lor' bless you, sir, we was all looking for you to disappear."

"Why, what do you mean?" said the clergyman.

"Well, sir, you see, the pulpit is rotten, and hasn't been preached in this ten year or more."

American Indians.

There are about 125,000 Indians in the Dominion of Canada. In the United States the Indians number 365,090. More than a third of them being in the state of Oklahoma.

Old-Fashioned.

"You say she is old-fashioned?"

"Oh, hopeless!"

She is still making a collection of picture post-cards."

OLD-FASHIONED WILL TELL YOU.

Mrs. J. M. Brown, of the City of New York, writes: "I have been using your 'Wet Blanketing Genus' for some time, and it has done me a great deal of good. I have been suffering from a bad cold, and my head aches, and my back is sore, and my stomach is bad, and my bowels are constipated, and my skin is itchy, and my hair is falling out, and my face is FATE OF FRENCH CRIMINALS.

Convicts Endure Misery, Toll and Systematic Ill Treatment Under Tropical Skies.

In France a criminal who is classed as incorrigible is sent to the islands of Guiana or the Guiana colony, or to Devil's Island, where Captain Dreyfus languished, is one—or to St. Laurent or St. Jean, a little higher up the river, says a writer in the *Wide World*. In this terrible climate, with the scorching sun beating down upon them, the criminals are made to work in the gold mines or are placed in the hands of the officers in charge have practically unlimited power over them, they are often ill-treated. The inhabitants of these prisons range from murderers of the worst type to professional thieves and desperadoes. About one-fifth of the criminals are women, and—a thing that seems incomprehensible to me—were permitted to marry the male convicts! In some cases wives had joined their convict husbands. What dreadful children must be raised in this atmosphere of crime and brutality!

Escape is the one thought of the convict. The doors lead to the jungle, and the officers in charge do not seem to care if the convict escapes into the forest. He knows very well that men seldom get away alive from this terrible region of deadly malaria and ferocious wild beasts. Fugitives have also been known to turn upon the natives, to hunt the male convicts. In some cases the male convicts are sent to hunt the female convicts. In some cases the male convicts are sent to hunt the female convicts.

THE RESSEMBLANCE.

"From the way you are staring at me, madam, I conclude I look like some one you know."

"So you do. You remind me of much of my dear old English bull terrier."

TO PROTECT COLLAR BAND.

A small piece of muslin sewed inside the shirt to collar band and shoulder seam will protect the garment from wear of stiff collars against the collarbone. The front of the piece of muslin should be left loose so that it will not interfere with laundering.

His Mistake.

"Annanias tried to work a business paradox."

"What was that?"

"He attempted to turn his assets into liabilities."

FILES CURED.

Small round tablets, taken out all soreness, itching, and burning, and in 30 minutes it is cured. Send for sample to Florida Remedy Co., 211 Grand Ave., Milwaukee, Wis.

This is not a baseball story

Cholera has usually found a useful ally in superstition. In the old days the disease was believed to lie bottled up in volcanoes and to be released by eruptions. The most effectual way to avoid it was to sleep in bed with your head due south. In Russia during the terrible epidemics six years ago the

era away. What happened along the caravan routes of Asia the habit of washing dirty clothes in the drinking wells.

Rooks were the birds whose connection with the cholera was proved in Ireland in 1832. According to the contemporary Dublin Mo-
